Contents Volume 73, 1996

Forest soil mineral weathering rates: use of multiple approaches
R.K. Kolka, D.F. Grigal and E.A. Nater 1
Topological characterization of pore space in soil — sample preparation and digital image-processing
H.J. Vogel and A. Kretzschmar 23
Soil-forming processes and rates on uplifted marine terraces in southwestern Oregon, USA
J.G. Bockheim, J.G. Marshall and H.M. Kelsey 39
Petrological differentiation patterns and geomorphic distribution of ferricretes in Central Africa
A. Beauvais and C. Roquin 63
The influence of percolation rate on the weathering rates of silicates in an E horizon of an Umbric Albaqualf
C. van der Salm, J.M. Verstraten and A. Tiktak 83
Study of current dynamics of soils from a podzol–oxisol sequence in Tahiti (French polynesia) using the test-mineral technique
R. Jamet, B. Guillet, M. Robert, J. Ranger and G. Veneau 107
Detrital origin for smectite in soils and sediments from the coastal plain of Ariake Bay, northern Kyushu, Japan
C. Mizota and F.J. Longstaffe 125
Effects of ecological soil management on workability and trafficability of a loamy soil in the Netherlands
P. Droogers, A. Fermont and J. Bouma 131
Deterministic uncertainty and complex pedogenesis in some Pleistocene dune soils
J.D. Phillips, D. Perry, A.R. Garbee, K. Carey, D. Stein, M.B. Morde and J.A. Sheehy 147
Pedotransfer functions for variable alluvial soils in southern Ohio
E. Salchow, R. Lal, N.R. Fausey and A. Ward 165
Heterogeneity of the pore and solid volume of soil: distinguishing a fractal space from its non-fractal complement
J.W. Crawford and N. Matsui 183
Cadmium adsorption at different pore water velocities
K. Bajracharya, Y.T. Tran and D.A. Barry 197
Effect of perchlorate, nitrate, chloride and pH on sulfate adsorption by variable-charge soils
G.Y. Zhang, G.M. Brümmer and X.N. Zhang 217
Comparison of different field methods for determining the hydraulic conductivity curve of a volcanic Vesuvian soil
V. Comegna, P. Damiani, F. D'Anna and C. Ruggiero 231
Mössbauer spectroscopic study of iron oxides and oxyhydroxides in gossans
S.M.B. de Oliveira, R.A.L. Imbernon, C.S. de M. Partiti and H.R. Rechenberg 245
